PROFESSIONAL SUMMARY

I am an eCommerce operations professional with 2.2 years of experience working at TCS on the Macy's Inc. project, supporting product onboarding and catalog operations for online retail.

My experience includes handling eCommerce product listings across multiple categories such as Home, Toys, Textile, and Food. I have worked extensively on product data review, catalog audits, SEO-based product optimization, buyer approval workflows, SKU/UPC mapping, image upload and tagging, and attribute setting to ensure product pages are accurate, compliant, and ready for online selling.
